

# Science lessons from SHY® (UK)

at Dulwich Prep School laboratories

Motorised for simple and safe operation

Now available with obstacle detection motor technology

## Product

SHY® ZIP® blinds

## Operating Method

Motorised with radio controlled operation

## Installer

BBD Ltd

## Where

Dulwich, London

Dulwich Prep School's new laboratory facility had large glazing that needed blinds to provide the ultimate control over light ingress.

The solution was simple - SHY® ZIP® blinds which have a clever ZIP® welded to the sides of the fabric running in a special side channel to ensure the fabric is always held secure and so always controlling the light.

At this site the headboxes and side channels were powder coated to match

the window frames. The fabric used on the blinds was SHY's B140 heavy duty PVC blackout material which is ideal for this environment as it is very robust and wipe clean.

Motorised operation with wireless controls provides quick, safe and simple operation of the blinds.

SHY® ZIP® blinds have been used in schools, colleges and universities across the UK.

SHY (UK). 1 Bilton Road Industrial Estate  
Cadwell Lane, Hitchin, Herts. SG4 0SB.
