

Now you see them, now you don't

When you have a room with a view, particularly one as magical as this - the blinds have to be magical too

Blinds fully retract into a blind box when not required

Now available with obstacle detection motor technology

Product

SHY® ZIP® blinds

Operating Method

Motorised, radio controlled

Dealer

All Window Blinds

Where

Killarney, Ireland

SHY® (UK) prove that large black-out blinds can be elegant and unobtrusive.

On the shore of Loch Lein in Eire the five star Europe Hotel needed the ability to control the natural light in their conference facility. With the combination of glazed sections up to 28 sq m and the requirement for the blinds to magically disappear when not

in use, All Window Blinds from Dublin knew that the SHY® ZIP® Screen system would do the trick.

So with the roller barrels neatly concealed above the window and the slim channels inconspicuous in the window reveals these electric blinds put on a stunning performance when needed - just like magic.

SHY (UK). 1 Bilton Road Industrial Estate
Cadwell Lane, Hitchin, Herts. SG4 0SB.
