

SHY® (UK) takes to the slopes

The Carnegie Pavilion at Headingley, the home of Yorkshire Cricket Club, provides space for media, teaching and player's facilities and has full height, sloping glazing overlooking the pitch.

Sloping glazing is no problem for SHY® ZIP® blinds

Product

SHY® ZIP® blinds

Operating Method

Manual with side chain operation

Dealer

Dearnleys Limited

Where

Yorkshire County Cricket Club, Leeds

SHY® (UK)'s dealer, Dearnleys, knew that a guided roller blind system would be needed to neatly fit on the sloping mullions and work effectively. The SHY® ZIP® system was the ideal choice as the side channels of the blind guide and supports the fabric on sloping applications.

In total over 120 SHY® ZIP® blinds were installed with some fitted

with screen fabric to provide control over light and heat but still permit an external view and some with blackout fabric - all flame retardant to European standards.

All the blinds on this project were manually operated by chain control with the chain loops secured to ensure they remained in position, accessible and safe.

SHY (UK). 1 Bilton Road Industrial Estate
Cadwell Lane, Hitchin, Herts. SG4 0SB.
