

When simple is best

SHY® (UK)'s roller blinds are a very versatile form of window shading and so the applications are many and varied, including church windows as at this site.

Screen fabric reduces glare but preserves view

Product

OBSCURA® blinds

Operating Method

Manual, side chain operation

Where

Kempston, Bedfordshire

A refurbishment of this church saw 9 stained glass windows repaired and cleaned. The beauty of this historic craftsmanship did not want to be obscured but control of glare was required for the comfort of the congregation.

So SHY® (UK) installed 9 Obscura roller blinds fitted with a screen fabric which helped reduced glare

but still preserved a view of the windows.

The Obscura blind system can be fitted with virtually any fabric from black-out to sheer and with sizes up to 70 square metres most windows can be blessed with a SHY® blind.

SHY (UK). 1 Bilton Road Industrial Estate
Cadwell Lane, Hitchin, Herts. SG4 0SB.
