Even smokers are entitled to some comfort. One pub in Ireland has kindly built them a Victorian gazebo. But how do they keep out the elements? SHY ZIP screens, installed by All Window Blinds, of course.

The ZIP is held permanently in the side channels yet still allows the blinds to run freely. With the

cloth rolling into a small SHY 65 box, side channels measuring only 17mm x 28mm and movement by a neat finger-operated handle, the whole system is compact and unobtrusive.

Yet tough enough to cope with most that nature (and sometimes humans) throw at it.

SHY (UK). 1 Bilton Road Industrial Estate  
Cadwell Lane, Hitchin, Herts. SG4 0SB.
